Board of Education Approval  
September 18, 2013

# **Ohio Department of Education Policy on Positive Behavior Interventions and Support, and Restraint and Seclusion**

Adopted by the State Board of Education January 15, 2013

## **I. Purpose**

The purpose of this policy is to create a statewide policy that applies to all school districts regarding the use of positive behavior intervention and supports, and the limited use of restraint and seclusion. The Ohio Department of Education promulgates this policy in accordance with the Governor's Executive Order 2009-13S, the State of Ohio Policy on Restraint and Seclusion Practices dated May 17, 2010, and in accordance with guidance from the United States Department of Education.

Every effort should be made to prevent the need for the use of restraint and for the use of seclusion. The use of a non-aversive effective behavioral system such as Positive Behavioral Intervention and Supports (PBIS) shall be used to create a learning environment that promotes the use of evidence-based behavioral interventions, thus enhancing academic and social behavioral outcomes for all students.

Restraint or seclusion shall not occur, except when there is an immediate risk of physical harm to the student or others, and shall occur only in a manner that protects the safety of all children and adults at school. Every use of restraint or seclusion shall be documented and reported in accordance with the requirements set forth below.

## **II. Applicability**

This Ohio Department of Education Policy applies to all school districts in the State of Ohio, and is effective beginning with the 2013/2014 school year.

### V. Positive Behavior Intervention and Supports

- A. Every student deserves to be treated with dignity, be free from abuse, and treated as a unique individual with individual needs, strengths, and circumstances. Schools shall implement an evidence-based school wide system or framework of positive behavioral interventions and supports.
- B. Education environments shall be structured to greatly reduce, and in most cases eliminate, the need to use restraint or seclusion. Positive Behavior Intervention and Supports (PBIS) creates structure to the environment using a non-aversive effective behavioral system. It is a decision making framework that guides selection, integration, and implementation of evidence-based academic and behavioral practices for improving important academic and behavior outcomes for all students.
- C. The PBIS prevention-oriented framework or approach applies to all students, all staff, and all settings. Research supports the conclusion that PBIS, when integrated with effective academic instruction, provides the support students need to become actively engaged in their own learning and academic success.
- D. Components of a system of Positive Behavior Intervention and Supports include:
  - 1. Trained school staff to identify conditions such as:
    - a. Where, under what conditions, with whom and why specific inappropriate behavior may occur.
    - b. Preventative assessments should include:
      - i. A review of existing data,
      - ii. Interviews with parents, family members and students and
      - iii. Examination of previous and existing behavioral intervention plans.
    - c. With the analysis of these data schools shall develop and implement preventative behavioral interventions and teach appropriate behavior.
      - i. Modify the environmental factors that escalate the inappropriate behavior.
      - ii. Support the attainment of appropriate behavior.
      - iii. Use verbal de-escalation to defuse potentially violent dangerous behavior.
  - 2. Schools must establish a system that will support students' efforts to manage their own behavior; implement instructing techniques in how to self-manage behavior, decrease the development of new problem behaviors; prevent worsening of existing problem behaviors; redesign

learning/teaching environments to eliminate triggers and maintainers of problem behaviors. The system should include family involvement as an integral part of the system.

### VI. Prohibited Practices:

The following are prohibited under all circumstances, including emergency safety situations:

- A. Prone restraint as defined in Executive Order 2009-13S;
- B. Corporal punishment;
- C. Child endangerment as defined in R.C. 2919.22;
- D. Seclusion or restraint of preschool students in violation of the provisions of Ohio Adm. Code Rule 3301-37-10(D);
- E. The deprivation of basic needs;
- F. Restraint that unduly risks serious harm or needless pain to the student, including the intentional, knowing, or reckless use of any of the following techniques:
  - 1. Using any method that is capable of causing loss of consciousness or harm to the neck or restricting respiration in any way,
  - 2. Pinning down with knees to torso, head and/or neck,
  - 3. Using pressure points, pain compliance and joint manipulation techniques,
  - 4. Dragging or lifting of the student by the hair or ear or by any type of mechanical restraint,
  - 5. Using other students or untrained staff to assist with the hold or restraint, or
  - 6. Securing a student to another student or to a fixed object;
- G. Mechanical or chemical restraints (which does not include devices used by trained school personnel, or by a student, for the specific and approved therapeutic or safety purposes for which such devices were designed and, if applicable, prescribed, or medication administered as prescribed by a licensed physician);
- H. Aversive behavioral interventions; or
- I. Seclusion of students in a locked room.

### VII. Restraint

- A. Each school district must have a policy that specifically indicates that the use of prone restraint, physical restraint that obstructs the airway of a student, or any physical restraint that impacts a student's primary mode of communication is prohibited.

- B. Physical restraint may be used only when there is an immediate risk of physical harm to the student or others and no other safe and effective intervention is possible, and only in a manner that is age and developmentally appropriate. School personnel may use physical restraint only in accordance with local policy and the requirements of this policy.
- C. If a school district uses physical restraint, staff must:

  - 5. Conduct a de-briefing including all involved staff to evaluate the trigger for the incident, staff response, and methods to address the student's behavioral needs; and .
  - 6. Complete all required reports and document staff's observations of the student.
- D. If a student repeatedly engages in dangerous behavior that leads to instances of restraint and/or seclusion, the school district shall conduct a functional behavioral assessment to identify the student's needs and more effective ways of addressing those needs. If necessary, this functional behavioral assessment should be followed by a behavioral intervention plan that incorporates appropriate positive behavioral interventions.

### VIII. Seclusion

- A. Seclusion may be used only when there is an immediate risk of physical harm to the student or others and no other safe and effective intervention is possible. Seclusion shall never be used as a punishment or to force compliance. Seclusion should only be used in a manner that is age and developmentally appropriate. School personnel may use seclusion only in accordance with local policy and the requirements of this policy.
- B. Seclusion is a last resort safety intervention that provides an opportunity for the student to regain self-control.
- C. A room or area used for seclusion must:

Adopted by the State Board of Education January 15, 2013

1. provide for adequate space, lighting, ventilation, clear visibility and the safety of the student; and
2. not be locked.

D. Seclusion shall not be used:

1. for the convenience of staff;
2. as a substitute for an educational program;
3. as a form of discipline/punishment;
4. as a substitute for less restrictive alternatives;
5. as a substitute for inadequate staffing;
6. as a substitute for staff training in positive behavior supports and crisis prevention and intervention; or
7. as a means to coerce, retaliate, or in a manner that endangers a student.

E. If a school district uses seclusion, staff must:

1. Be appropriately trained to protect the care, welfare, dignity, and safety of the student;
2. Continually observe the student in seclusion for indications of physical or mental distress and seek immediate medical assistance if there is a concern;
3. Use verbal strategies and research based de-escalation techniques in an effort to help the student regain control as quickly as possible;
4. Remove the student when the immediate risk of physical harm to self or others has dissipated;
5. Conduct a de-briefing including all involved staff to evaluate the trigger for the incident, staff response, and methods to address the student's behavioral needs; and
6. Complete all required reports and document their observation of the student.

F. If a student repeatedly engages in dangerous behavior that leads to instances of restraint and/or seclusion, the school district shall conduct a functional behavioral assessment to identify the student's needs and more effective ways of addressing those needs. If necessary, this functional behavioral assessment should be followed by a behavioral intervention plan that incorporates appropriate positive behavioral interventions.
