

Chromebook cameras will be turned on for all students to better accommodate online remote learning.

If you prefer to block the camera on your student's Chromebook, please cover the camera with a small sticker or piece of colored tape. This will prevent the camera from working but it will not interfere with the Chromebook's functionality. The camera is the tiny, glass circle located at the top/center of the Chromebook bezel. See the picture below:

The Clear Fork Technology Department reserves the right to disable the camera for any student who violates Clear Fork's Acceptable Use Policy defined in Section A, #17 as follows:

When using any type of cameras (digital or video), users are specifically prohibited from using the equipment to access or send pornographic, lewd, offensive, indecent, obscene or vulgar material. In addition, users are prohibited from using the equipment for anything except educational assignments that are assigned by the staff of Clear Fork Valley Local School District.
