

Viewing Report Cards that have been posted to ParentAccess

Click on the Report Card link on the left sidebar to show the Report Card Screen.

1. You can select the Report Card options at the top. This controls the **grid area** in the center of your screen. If your district has posted interims, you can switch to interims in the pulldown as well, and the grid area will show the posted interim grades as well.
2. Keep in mind, the **grid area** in the middle of the screen will show the grades in the grid **if your district has posted them to show in the grid**. Some districts may not post grades to the grid. If they haven't posted grades to the grid you may see a message in the middle of the screen about grades not being posted; however, the paper copies may still be posted. **(See Step 3)**
3. By clicking **View Paper Report Card**, this will open the most recently posted report card by the district for your student.
4. By clicking "View Paper History", this will bring up the screen shown on the next page, where you can view **ALL** report cards that have been historically posted for your student.

Progress Report Card History

High School

Grade: 11

Term	End Date	Description
1st Quarter 2019-20	10/15/19	1st Quarter grade card 2019-20
